

Chemistry 51 Lab Experiments

Experiment procedures, report forms and other documents for the laboratory experiments for this class are available below:

<i>Experiment No.</i>	<i>Title</i>	<i>Report Forms</i>
1	Measurement	
2	Density	Report Form
3	Qualitative Separation of Mixtures	Report Form
4	Quantitative Separation of Mixtures	Report Form
6	Specific Heat of a Metal	
H/O	Nomenclature	
H/O	Molecular Shape & Polarity	
H/O	Balancing Equations	
10	Combination and Decomposition	
11	Single Replacement Reactions	
12	Double Replacement Reactions	
H/O	Net Ionic Equations	
H/O	Empirical Formula	

<i>Experiment No.</i>	<i>Title</i>	
9	<u>Percentage of Copper in Malachite</u>	
13	<u>Table Salt from Baking Soda</u>	
H/O	<u>Properties of Acids & Bases</u>	
H/O	<u>Charles' Law</u>
